Austin, Texas      Phone: (648) 821-1880      Email: nreith@gmail.com      Website: nicholasreith.com

---

## PROFILE

Data scientist with a strong background in statistical research, programming, large dataset management, analysis and visualization. Sociologist experienced in summarizing quantitative methods and analyses for non-technical audiences.

---

## SKILLS AND INTERESTS

**Programming:** R, STATA, L<sup>A</sup>T<sub>E</sub>X, PYTHON, SQL, BASH, TABLEAU, ARCGIS, GIT, & HTML/CSS

**Data Skills:** Bit data wrangling/cleaning, Missing data/imputation, Networks, Spatial, and Visualization

**Quantitative Methods:** Regression techniques (Multivariate, Categorical, Factor analysis, Structural and simultaneous equations, Event history / Survival analysis, Multi-level / Hierarchical linear, Time-series / Longitudinal, Spatially-weighted, Bayesian prediction), Diagnostics, Research design, Network analysis, and Genetic algorithms

**Languages:** Fluent in French, Spanish and Arabic.

---

## EDUCATION

**Ph.D.**, University of Texas at Austin (Sociology) Expected August 2016

- Dissertation: *"Missing Data": Revising Political Sociology with Overlooked Data*
- Four peer-reviewed, published journal articles. See online: <http://www.nicholasreith.com/vitae/>

**Fulbright Fellowship** (Damascus, Syria) 2004-2005

**M.A.**, Georgetown University (Arab Studies/Politics), *with Honors & Cum Laude* 2004

**B.A.**, New York University (French, Spanish, Religious Studies), *with Honors & Magna Cum Laude* 2002

**Other Education:** *L'Institut Français du Proche-Orient* (Damascus), Columbia University (New York), *L'Institut Catholique* (Paris), and *Instituto Internacional* (Madrid)

**Honors & Awards:** Scholarships for B.A., M.A. and Ph.D., and numerous fellowships including Fulbright.

---

## RECENT EXPERIENCE

**Research Assistant & Statistical Consultant @ The University of Texas at Austin** 2011-2016

- Lead programmer and research assistant/consultant on a number of large data projects.
- Performed complex statistical analyses (See Quantitative Methods above).
- Managed/cleaned large datasets including survey, network, and machine-coded, spatial data.
- Collaborated with numerous experts in the field to collect, evaluate, and analyze data.
- Wrote-up and presented technical methods and statistical results for diverse non-technical audiences
- Provided data and statistical consulting advice to other Professors and Graduate Students.

**Teaching Assistant @ The University of Texas at Austin** 2012, 2014, 2016

- Taught advanced statistics and programming to Ph.D. students from a number of disciplines.
- Designed lab tutorial series for Stata programming.
- Coordinated with Professors to design and grade exams and assignments.

**T<sub>E</sub>Xpert @ Overleaf.com** 2014-2016

- Provided technical support to L<sup>A</sup>T<sub>E</sub>X users, including complex problem-solving for an array of documents.
- Designed L<sup>A</sup>T<sub>E</sub>X templates, including a journal article manuscript.

**Special Assistant & Senior Researcher @ The United Nations Development Programme** 2005-2010

- Policy/program advisor. | Speech/grant/report writing. | Diplomatic liaison. | Strategic planning.
- Program management. | Monitoring and evaluation. | Capacity development. | Curriculum design.
